

### Application

Engineered to land FTTH fiber terminations as conveniently as possible, the FieldSmart SCD TAP Box is optimized for delivery of FLEXdrop via a FLEXdrop Deploy Reel and Slack Storage Reel. The lockable enclosure is compact and sealed, making it ideal for a variety of applications, including harsh environment locations surrounding the fiber demarcation point. Additional applications include MDU and business class services.

### Description

The FieldSmart SCD TAP Box offers single or dual count fiber deployment in a discrete footprint and without sacrificing proper fiber management. With the FieldSmart SCD TAP Box, enclosures are designed packaged to make FTTH more cost-effective and efficient than previously thought possible. Standardizing on a craft-friendly, building block architecture reduces the operating costs of fiber deployment by reducing installation times and inventory carrying requirements.
